

# PRODIM

## Proliner 7

### **The Proliner® 7 - the lightweight professional**

This newest model is compact and more than 20% lighter than the Proliner 8. This size and weight reduction improves your personal working conditions. The Proliner 7 has a large 8" screen. This makes it easy to check, edit and finish your measurement on the Proliner. Besides this you keep continue to benefit from the familiar advantages from the Proliner 8, like fastness, accuracy and extended software possibilities.

## **Proliner, world's leading digitizer in 2D & 3D measurements!**

***Measurement made portable***

# 2D & 3D Digital measurement made fast, accurate & easy
